

Closing Hats:

Regardless of what stitch I am doing, on the last row I do it so only one loop will be on each peg.

Then I cut the yarn leaving a long tail, I thread with this tail a yarn needle, and take the loops of the loom. I gathered all the stitches, and pull to close, a little hole is on the center, with the needle I go again, thru the each stitch, and pull again, now is no hole.

I put the needle to the inside of the hat, turn the hat inside out, with little stitches going forward and backwards, I go around the top stitches of the hat.

And then I cut the yarn.
